

**Marie Caroline Godin 3° B  
Monday 12 th :**

**The first day of the journey was a very good day!**

**It was not the first time that I took the plane but the idea to take it with my friends delighted me.**

**I took lots of luggage but when I saw the girls I was relieved.**

**We were going to take the plane from Geneva to Liverpool John Lennon airport but Francois had a very important problem. But fortunately the problem was solved and we embarked on the plane.**

**After that in the plane I was on Manon's side and we laughed a lot when we saw the lake of Geneva through the porthole.**

**Arrived in Liverpool , we took the bus for the first time in England to join our families in Chester. The route by bus was funny because we drove on the left . I was not very happy to leave my friends because I didn't want to go without them to the family.**

**My family was the first one arrived at the meeting point so with Alexia we said goodbye to everybody.**

**In the evening, we ate some eggs and chips without a glass of water. With Alexia we were surprised because the family was not very happy to see us and she didn't asked us our opinion about England .**

**After this long day we went to sleep in our room to be in shape for the next day.**

**Tuesday 13th:**

**At 7:30 a .m Alexia and me had a lot of difficulties to wake up but we went to have breakfast but when we arrived in the kitchen we saw just Orange-juice with cornflakes so we had a little breakfast. At 8: 20 a .m, we left the family to go to the bus.**

**At 8:30 we saw the bus so I was happy to see my friends because the evening was not funny as the day.**

**With the bus ,we went to Enguinty museum in Ironbrige. This museum was very funny because with the girls we played games. After this visit we saw the Ironbridge and we ate on the bridge but the food was not very fresh so with Alexia we ate some chips and an ice cream in the toffy . This lunch was very funny because Miss F. had overturned some water on her jeans.**

**After lunch we went to Blist Hill Victorian Town . It's a reproduction of a former English vilage . I liked this village because I think the reproduction was very good . And the weather was with us.**

**At 6:30 p.m. I arrived in my family with Alexia . We ate hamburgers with water, we watched a DVD and we went to bed.**

## Wednesday 14<sup>th</sup>

The day began by a hard wake up and a very little breakfast (just orange juice!!) With Aexia, We saw breakfast becoming smaller and smaller everyday . After that, Alexia and me went to the bus stop in Hools. When the bus arrived, we went in Wales for a walk in Great Orme . On the great Orme ,we did summer sled and Mr Fournier was not very fast !!! After that, we ate all together . I ate chips and snicker's . After lunch , we went on the bus. The routes by bus were very funny. After one hour of bus, we arrived at Caernarfon Castle (a very beautiful castle . We visited this castle and after we did shopping but this city was very little and the shops were not very big. With friends, we ate some ice cream and lots of junk food. As every day , the bus was very funny and with girls we took photos . After that we returned in our family. This evening was very special. There were tensions between the family and us. In fact the way of life between the family and us wasn't identical and it didn't please our family. So after this «quarrel» we went in bed and we spent a difficult night.

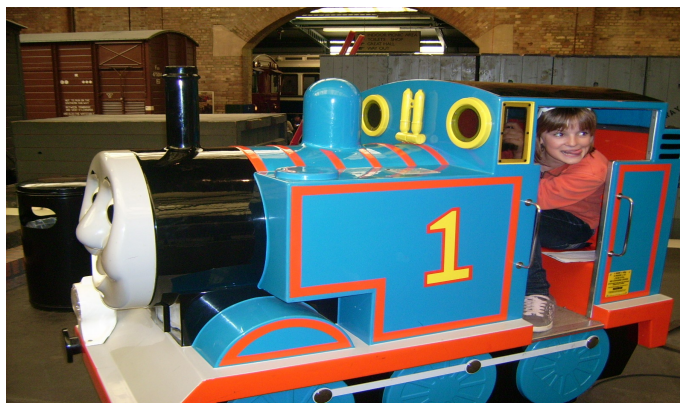

Thursday 15<sup>th</sup>

After a very difficult and very stressful evening , we woke up anguished but I was decided to spend a good day with the teachers and friends. During breakfast we ate orange juice and after that we went in the bus. We went in the city of York. In York, we visited the city with Mrs Judith Puet (she was a very special person... ) We walked on the defense walls, we saw a very big cathedral and lots of alleys. The visit was nice but at the end of 2 hours we were bored and we wanted to eat... After lunch we had a free time in the streets of York. In the after noon we visited the National Railway Museum. This museum was interesting and very big . We could go into trains and we had a quiz on trains ... During this visit, with Mathieu we saw a red carpet and we pretended to be stars ...

Out of the museum we perceived a big wheel and we wanted all to go there but we had no time so after that we returned on the bus to join our families. To finish, in the family we ate broccolis and small peas and we saw a movie and we went in the bed .

Friday 16<sup>th</sup>

**This day was my favourite, maybe because of the visit of the Beatles museum, so I was a bit excited . First, we visited the maritime museum and the slavery museum . We started by the floor about boats, there were models of many famous boats and I preferred the room dedicated to the Titanic... because this boat is very beautiful. The second floor was dedicated to the celebrities who marked the history of England and the third floor was about slavery. After that , the teachers decided to do a game (3rd against 4th ) . We made the teams in our group to win the quiz. Then we ate next to the river and we walked to the center of Liverpool to shop. There were lots of things to see but it was the time to go to visit the Beatles museum. We were a bit disappointed because we couldn't take photos in this museum. I remember that with Manon we sang "imagine" by John Lennon. In this room there was john Lennon's piano and the words of «Imagine » were written on the white walls. It was very complete and interesting. I bought a poster with the Beatles and a purse. Unfortunately, it was time to come back to Chester but the day wasn't finished ! We ate together in the airport of Liverpool and we did a Ghost Tour in the town of Chester, not very scary but pleasant ! We came back at home and we slept.**

Saturday 17<sup>th</sup>

**It was the beginning of the last day. I admit it was not the funniest. As every morning we went to the bus (but this time it for the last one time). At first we said «goodbye» to the family. Then we went to a shopping center but with Manon we did not have money anymore to buy souvenirs thus we bought something to eat . After that Milena had an accident : she was run over her foot by a car when she crossed the car park. After we went in the airport without Mr Fournier and Milena but we didn't have the identity cards so we couldn't take the plane . Fortunately someone arrived with cards so we could take the plane !!! «ouffff» at 4:15 pm we arrived at Geneva after a little very funny travel ... and I returned in my family .**
